Education

BNM Institute of Technology

B.E. in Information Science and Engineering

Aug 2022 – Present

CGPA: 9.24

SKCH PU College

Pre-University

2020 – 2022

[PCM] Score: 83%

APS Public School

ICSE Board

2009 – 2020

Grade 10 Score: 91.3%

Skills

- **Languages:** Java, C, Python, HTML, CSS, MySQL
- **Tools/Technologies:** Git, UiPath Studio, Blender

Experience

Mindstack Solutions

AI Intern

Jul 2025 – Jan 2026

Bangalore, India

- Developing RAG pipelines with LangChain and open-source LLMs to handle domain-specific queries.
- Working with vector databases like Weaviate and FAISS for document indexing and retrieval.
- Involved in prompt engineering and LLM fine-tuning for enterprise-grade applications.

Freelancing

Software Developer

Jan 2026 – Present

Bangalore, India

- Developing AI-powered solutions for clients using modern technologies.
- Building scalable backend systems and integrating APIs for automation and data processing.

Projects

AI-Powered Braille Learning Device

Developed inclusive AI-powered Braille learning device with tactile feedback, speech, and multilingual support.

IoT, Python, Arduino ESP32, HTML, CSS

Interactive Quiz Game

Created an interactive quiz platform with subject categories and backend database integration.

HTML, CSS, PHP, MySQL

Java-based Coding Assistant

Built a smart coding assistant by leveraging Gemini AI

Java, Maven

Cricket Database Management

Built a Python-based system to manage and analyze cricket match and player data.

Python, MySQL

Gas Leakage Detection System

Designed an IoT solution for real-time gas detection and emergency response with ESP32.

IoT, Arduino ESP32

Bank Transaction Management System

Built a secure C-based console application for bank transaction records.

C

Smart Healthcare Monitoring

Developed an IoT-based healthcare solution for remote vitals monitoring.

IoT, Arduino ESP8266

Certifications & Internships

- Internships: File Structures, Web Tech (BNMIT, Oct-Nov 2023); Cybersecurity (Theta Dynamics, Aug-Sep 2024)
- UiPath: Automation Basics, Studio Workflows, PDF Automation, Email Automation
- Google: GenAI, LLMs, Prompt Design in Vertex AI
- Infosys: Python for Data Science, Network+ Prep
- NPTEL Deep Learning – IIT Ropar
- NPTEL Advanced Distributed Systems – IIT Delhi
- AWS Academy : Cloud Foundations
- Salesforce Trailhead : Salesforce Developer Catalyst - V 3.0

Achievements

- Winner – Code Crunch Hackathon (MathWorks, Apr 2024)
- Winner – Smart India Hackathon (MoE, Dec 2024)
- Finalist – EcoEquify Hackathon (IBM, Jul 2024)
- Participant – CosmoCloud (Oct 2024), Aikyam (Mar 2025), Virtuovation (Apr 2025)
